

PROFESSIONAL CAREGIVERS

IN SENIOR SERVICES

A SNAPSHOT OF THE LONG-TERM CARE WORKFORCE

For more than a year, tens of thousands of Minnesota's professional caregivers have protected our most vulnerable seniors in long-term care.

Caregivers who support the elderly and medically vulnerable are truly the heroes of the pandemic. They deserve our recognition, our support and our thanks for their sacrifice and bravery.

Caregivers have showed up, day in and day out, throughout the pandemic to care for their residents.

ACROSS THE FIELD

38,000 nursing home employees

41,500 assisted living employees

OUR WORKFORCE

25% people of color
