Subject: Front-line worker pay

CHILD CARE workers were the ultimate front line workers, besides health care workers. CHILD CARE kept our economy open by staying open and caring for and educating our youngest Minnesotans. CHILD CARE is the backbone of the economy, CHILD CARE is the business that keeps other businesses in business. I don't know who, besides health care workers, would be more deserving. And, the health care workers wouldn't have been able to work without CHILD CARE. If our economy is going to get back on track, and stay on track, we need CHILD CARE and they deserve some of the Frontline Worker Pay!

Thank you for consideration of this recommendation.
