**2018: 2,972 Total Disqualifications**

**2019: 5,783 Total Disqualifications**

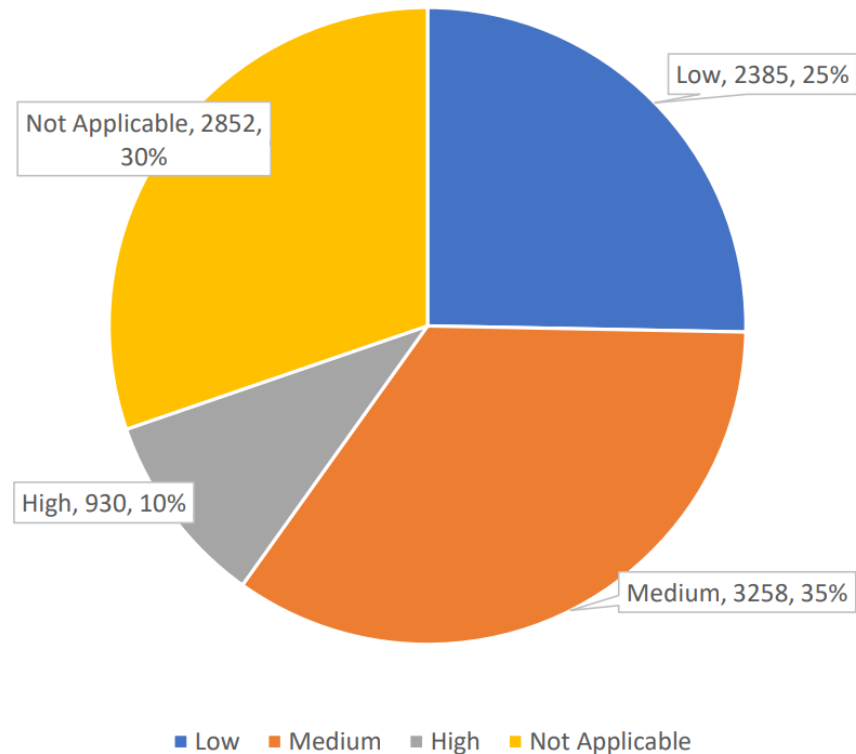

# Human Services Background Study Eligibility Task Force

Distinct count of persons with at least one disqualified or disqualification rescinded by severity (2019 only)

**Not Applicable.** In cases where an individual is not allowed to provide services until either an eligible determination, a set aside, or a variance has been obtained, the risk of harm is not applicable because an individual with a disqualifying determination cannot provide services regardless of their risk of harm unless a set aside or variance is obtained.

**High.** It is determined that “an individual studied poses an imminent risk of harm”. A high risk of harm individual must be immediately removed from service and has 30 days to request a reconsideration. (Minn. Stat. sec. 245C.17 subd. 3)

**Low.** It is determined that “an individual studied does not pose a risk of harm that requires continuous, direct supervision”. A low risk of harm individual is allowed to continue providing services during their reconsideration request period and has 15 days to request a reconsideration. (Minn. Stat. sec. 245C.17 subd. 3)

**Medium.** It is determined that “an individual studied poses a risk of harm that requires continuous, direct supervision”. A medium risk of harm individual is allowed to continue providing services under continuous and direct supervision during their reconsideration request period and has 30 days to request a reconsideration. (Minn. Stat. sec. 245C.17 subd. 3)
