

Minnesota Background Studies 2018-2019 Supplement: Reconsideration Request and Crimes and Conduct Questions

This supplement is intended to answer three questions related to reconsideration requests and crimes and conduct as requested by the background studies task force. Each section below answers and provides context on each of the three questions asked by the task force.

The information above each section of tables is intended to provide context and understanding on what data is included in each respective section. There are [Additional Notes and Data Definitions](#) at the end of this packet with more information on specific terms and data points. The tables start at a high level and then progress into more detail in each section as data is disaggregated further.

Question 1 and 2: Reconsideration decisions resulting in “eligible to work” vs “not eligible to work”

Taskforce Questions:

1. “We’d like to see “eligible to work” vs “not eligible to work” outcomes of reconsideration requests in 2018 and 2019 (based on the definitions of those categories below) broken down by lookback period for the underlying disqualification (15-, 10-, and 7-year). So, for example, of the total 7-year disqualifications where reconsideration was requested in 2018, how many resulted in one of the “eligible to work” determinations vs the “not eligible to work” determinations?”
2. “If possible, we’d also like to see the breakdown above further broken down by disqualifying crime or conduct. So, for example, we’d like to see “eligible to work” and “not eligible to work” outcomes for reconsideration requests for 2nd degree assault disqualifications in the 15, 10, and 7-year lookback categories.”

Table 1 below responds to question 1 from the task force by showing all determinations with a request for reconsideration broken into “eligible to work” vs “not eligible to work” and by years disqualifying for the crimes and conduct on each determination. This table combines data on years disqualifying for crimes and conduct from Overview 3 and reconsideration requests from Overview 4.

In tables 1 through 4 below, all reconsideration outcomes are grouped into the three categories below.

- **Study subject eligible to work:** Includes the outcomes of Previous Set Aside, Remains Set Aside, Rescind in Total, Set Aside, Limited Set Aside, and Not Set Aside – Variance Granted

- **Study subject not eligible to work:** Includes the outcomes of Withdrawn, Correctness Affirmed, and Not Set Aside
- **In Process:** Includes reconsideration determinations that are not completed, meaning the outcome is not yet decided

Tables 2 through 3 respond to the second taskforce question by breaking Table 1 out further by disqualifying crime or conduct. To make the data more readable, this data has been broken into 3 tables:

- [Table 2](#) shows all determinations with a request for reconsideration by years disqualifying and crime/conduct
- [Table 3](#) shows the same data as [Table 2](#) for only determinations that resulted in the applicant being eligible to work
- [Table 4](#) shows the same data as [Table 2](#) for only determinations that resulted in the applicant not being eligible to work

As noted in Section 1 of the first supplement to data overview 4, the total number of determinations with a request for reconsideration in the [Table 1](#) and [Table 2](#) of this section is 217 less than in table 2 in Overview 4. This difference is due to 2 factors: (1) Reconsideration requests that result in an outcome of “rescind in total” have their disqualifying crimes and conduct removed from their record, which makes it impossible to report on the offense level data for these determinations; and (2) 16 of the determinations from Table 2 in Overview 4 were part of the 39 determinations that could not be disaggregated at the offense level, as noted in Overview 3 Section 1. In total, 201 determinations resulted in a reconsideration request outcome of “rescind in total” and an additional 16 determinations could not be disaggregated at the offense level, leading to a difference of 217 distinct determinations between [Table 1](#) and [Table 2](#) below and Table 2 from Overview 4.

Also as noted in Section 1 of the first supplement to data overview 4, the numbers in tables 1 through 4 below are distinct counts of determinations. Since one determination may have more than one disqualifying crime or conduct, and those crimes and conduct may have different disqualifying periods, the totals in each row will not add up to the grand total at the bottom of the table. For example, if a determination had a disqualifying crime with a disqualification period of 7 years and another with a Permanent Bar, it will be counted once in two rows but it will only be counted once in the grand total of distinct determinations.

As noted in Section 3 of Overview 3, there were 2,441 offenses for which the years disqualifying was not captured in the database. Determinations with offenses that had no years disqualified are indicated by the category “Years Disqualifying Not Entered for Offense” in tables 1 through 4.

All counts for a given date range (year in this case) were defined by determinations completed in that year. This date convention is used in all sections of this overview.

Table 1: Reconsideration requests by outcome and years disqualifying

Year/Years Disqualifying	Applicant eligible to work	Applicant ineligible to work	In Process
2018			
7 Years Disqualifying	1,210	368	<10
10 Years Disqualifying	191	58	
15 Years Disqualifying	423	180	
10 Year Bar	10	<10	
Permanent Bar		52	
Years Disqualifying Not Entered for Offense	316	87	
2019			
7 Years Disqualifying	1,528	751	<10
10 Years Disqualifying	323	99	
15 Years Disqualifying	770	400	<10
10 Year Bar	16	<10	
Permanent Bar	<10	94	
Years Disqualifying Not Entered for Offense	94	68	

Table 2: Reconsideration requests by years disqualifying and crime or conduct

Question 3: Crimes and Conduct by Year

Taskforce question: “We’d also like to see total numbers of disqualifications by crime/conduct for each year *not* broken down by lookback period. Dataset 3 Table 6 provides this information broken down by lookback period, but this results in imprecision in calculating *total* disqualifications for a particular crime when a <10 is reported for one of the lookback categories. We’re therefore making this request to get more precise versions of those totals.”

[Table 5](#) below contains the same data as Table 6 from Overview 3 with the years disqualifying removed. This change makes the table smaller and increases the count within each cell as the total is broken into fewer categories.

Table 5: Distinct count of disqualifying crimes and conduct by disposition type, and year

Year/Crime or Conduct Type	Adjudicated				Involuntary		Preponderance of Evidence
	Delinquent	Admission	Alford Plea	Convicted	Termination of Parental Rights	Maltreatment

Additional Notes and Data Definitions

1. Background Study **data sources** can include, but are not limited to, state criminal history, federal criminal history, Minnesota Court Information System (MNCIS), Minnesota child and adult maltreatment registries, and criminal or maltreatment records from other states.
2. An **eligible determination** means the background study subject was **not** determined to have committed a disqualifying crime or conduct in [Minn. Stat. sec. 245C.15](#)
3. A **disqualified determination** means the background study subject was determined responsible for a disqualifying crime or conduct in [Minn. Stat. sec. 245C.15](#)
4. A **disqualification rescinded – determination now eligible** determination means the initial determination was disqualifying and became eligible upon appeal.
5. A **background study provider application** is the record created by the provider when submitting a background study request. Background study provider applications can be created by providers at any time. If there is already another background study determination in process for the same person, the new background study application will connect to the in process background study determination (provided the background study requirements are met). In addition, existing background study determinations can transfer to new background study provider application submissions. The connection of background study provider applications to existing background study determinations creates efficiencies for study subjects and providers.
6. For an **undetermined determination**, DHS reviews information that was received but does not make an eligibility or disqualification decision on the determination (hence the determination is “undetermined”).
7. **Active roster** means the list of individuals specific to an entity who have been determined eligible to provide services for the entity and who the entity has identified as affiliated. See [Minn. Stat. sec. 245C.02 subd. 17a \(b\)](#)
8. A **rapback notification** (Record of Arrest and Prosecutions Back) is a notification DHS receives about new potentially disqualifying information for a background study subject with an active provider roster affiliation.
9. An **eligible rapback determination** means that the information received through the rapback process was found to belong to the study subject, but after review was determined to not be a disqualifying crime or conduct.
10. The Race/Ethnicity categories captured in the Background Studies system and used in the summarized data above are collected for purposes of a background study fingerprint study. These categories are determined by the FBI CJIS policy and must be used for fingerprint background studies. DHS does not collect other race/ethnicity data that would allow for different or more detailed break outs of racial or ethnic groups.
11. **Risk of Harm** is the assessed immediate risk of harm the determination subject poses to the persons receiving services that the subject will have direct contact with or direct access to.
 - a. **Low:** It is determined that “an individual studied does not pose a risk of harm that requires continuous, direct supervision”. A low risk of harm individual is allowed to continue providing services during their reconsideration request period and has 15 days to request a reconsideration. ([Minn. Stat. sec. 245C.17 subd. 3](#))
 - b. **Medium:** It is determined that “an individual studied poses a risk of harm that requires continuous, direct supervision”. A medium risk of harm individual is allowed to continue providing services under continuous and direct supervision during their reconsideration request period and has 30 days to request a reconsideration. ([Minn. Stat. sec. 245C.17 subd. 3](#))
 - c. **High:** It is determined that “an individual studied poses an imminent risk of harm”. A high risk of harm individual must be immediately removed from service and has 30 days to request a reconsideration. ([Minn. Stat. sec. 245C.17 subd. 3](#))
 - d. **Not Applicable:** The risk of harm category in cases where an individual is not allowed to provide services until either an eligible determination, a set aside, or a variance has been obtained

12. A **conviction disqualification** is based on a conviction, regardless of whether it was preceded by a plea or a trial.
13. An **admission disqualification** is based on guilty pleas without convictions, guilty pleas with stays of adjudication, or admissions in juvenile court without adjudication.
14. An **Alford Plea disqualification** is based on Alford pleas without convictions or with stays of adjudication, or Alford pleas in juvenile court without adjudication. An Alford Plea is similar to an out of state offense with a no contest plea.
15. A **preponderance of disqualification** is based on a determination by DHS that it is more likely than not that investigation, court, maltreatment, and other relevant records support a finding that the subject committed disqualifying conduct
16. A **maltreatment disqualification** is based on a determination by DHS that records of substantiated maltreatment or substantiated failure to report maltreatment meet the definitions of serious and/or recurring in [Minn. Stat. sec. 245C.02](#)
17. An **Involuntary Termination of Parental Rights disqualification** is based on terminations of parental rights under the standards of [Minn. Stat. sec. 260C.301 subd. 1\(b\)](#) or subd. 3
18. An **administrative disqualification** is based on a stipulation or finding by a judge that the subject is disqualified for wrongfully obtaining assistance under [Minn. Stat. sec. 256.98 subd. 8](#)
