

Chair Erin Koegel's Draft Mission Statement

November 20, 2023

Create a vision for Minnesota in which built and natural infrastructure is used as a tool to create excellent public and environmental health, pristine natural resources, economic prosperity, and a high quality of life.

This board/council/office will serve as the primary interface between state and local communities, provide financial support to local communities, and professional and technical services to local community leaders in the areas of ...
